“everyone has this conception of teaching kids to say ‘no’ to drugs, but this isn't the same as going to a street corner to buy heroin,” kromis said

we have ways of spreading information, and dealing with problems, and we have very long institutional memories

the chemical imbalance "mistruth" is even beingrepeated by physicians who have neglected to objectively read thescientific literature

this way, you are able to retrieve documents within a few seconds and use rest of your time for creating and implementing newer strategies.
